

BOSTIK HG3 GLUE GUN

PRODUCT

Bostik HG3 hot melt glue gun 110-240 volts, 50/60Hz, 55 watts with a working temperature of 193°C or 380°F.

DESCRIPTION

Bostik HG3 Glue gun, using Bostik HG3 glue sticks provide an instant fast, clean and versatile adhesion to a myriad of household and craft materials.

The Bostik HG3 Glue Gun is an easy to use glue gun that has an easy trigger action, retractable stand, fitted plug and is "C" tick approved [AS/NZ 1044: 1995 (CISPR 14)] and CE approved. The gun has a PTC (Posistor Temperature Co-efficient thermistor) and is a solid state device suitable for domestic use only.

RECOMMENDED USES

The HG3 Glue Gun is designed for DIY task and household repairs, hobby, craft-work, and home decor projects. Instantly bonds most craft and household materials including, fabric, wood, leather, most plastics, ceramics and metal.

FEATURES & BENEFITS

- Easy to use trigger action.
- Designed to fit neatly in the hand
- Easy to load and use
- Designed for Bostik HG3 Glue Sticks

PERFORMANCE PROPERTIES

Type	Trigger action glue gun
Rated voltage	110~240 volts
Rated input	55 watts
AC Hz	AC 50-60Hz
Heating Element	Posistor Temperature Co-efficient (PTC thermistor)
Protection Against Moisture	IP 20
Protection Against Electric Shock	Class II
Equipment Mobility	Portable
Type of Power connection	Permanently attached flexible cable with plug
Recommended Hot Melt	Bostik 12mm Ø glue sticks
Weight	200g
Application	Glue is released from gun by trigger action

PACKAGING

Bostik HG3 Glue Gun is packed in a hang sell blister pack and 12 units are packed into a printed cut-case carton.

APPLICATION INSTRUCTIONS

- Clip metal stand on glue gun Always use stand. Never lie gun down on side when in use or whilst cooling down this will cause gun failure.
- Insert Bostik HG3 glue stick gently through tunnel at back of gun. Never use excessive force as the glue stick will clog the channel.

- Plug cord into an electrical outlet and wait 5 minutes to heat up the glue. Ensure glue is hot or glue will not extrude through the gun.
- Apply adhesive by gentle continuous pressure and to the more difficult surface to bond (usually smooth surfaces are more difficult to adhere than rough, porous surfaces).
- Release trigger to stop flow of glue.
- Glue does not need to be spread. **Do not touch**
- Molten adhesive, as temperatures around 200°C will cause serious burns.
- Join surfaces as quickly as possible for optimum bond strength.
- To bond foam products (polystyrene foam, etc.) to another surface, apply adhesive in an "S" pattern to the surface to which the foam will be bonded, rather than directly to the foam.
- To bond fabrics, use a smaller "S" pattern for additional strength.
- Small drops of glue can be easily removed when cold.
- Residual glue can be remelted and removed from most bonded surfaces with a warm knife.
- When you have finished using the gun, switch off and unplug it.
- Allow the glue stick to remain in the gun – **do not remove stick from rear of gun at any time.**

LIMITATIONS & PRECAUTIONS

- **For domestic use only**
- Recommended for light assembly jobs.
- Do not allow the nozzle of the heated gun to make contact with any surface as it may cause damage. Hot molten glue may damage some surfaces.
- Do not leave gun unattended and unplug cord when not in use.
- Children should only use the gun under adult supervision.
- Do not use the gun in damp or wet conditions or expose it to rain.
- Never put any object in the gun other than the glue sticks recommended.

HEALTH AND SAFETY

- **Use extreme care;** molten material will burn skin. Do not touch molten glue or hot parts of gun.
- Wear protective clothing and eye protection when working with hot glue.
- Do not immerse the glue gun in water as it will cause electrical shock.

First Aid

Do not touch molten glue or hot parts of gun. If burnt, immediately immerse the contact area in cold, clean water for five minutes. For severe burns, contact a doctor. Do not attempt to remove glue from skin.

STORAGE

Store in a cool dry, area.
